**Dear Wilson:**

I am writing to thank you and China Spree for the absolutely wonderful trip to China that you put together for us, so that we could tour two major cities—Beijing and Xian, before moving on to attend the 2007 World Games in Shanghai! I appreciate that you were also able to offer two tours for us—a 12-Day and an 18-Day, so that our group of 40 people had a choice according to their schedules.

I understand the importance of testimonials, as that was a determining factor for decided upon your tour group, along with the great price you offered, as I searched online for affordable tours. So, I'm writing this for future individuals and groups, to help them decide which tour group to use.

Wilson, I am happy to say that China Spree fulfilled ALL of its' promises, while offering quality hotels to stay at, in all three cities. The first five days were very fast-paced which enabled us to see as much as possible in such a short time. The buses were clean and comfortable.

The highlights of our three-day stay in Beijing for me, were riding through the Hutong district by rickshaw and, of course, the Great Wall, even driving up to Badaling and seeing the wall from various locations was breathtaking. In Xian, my favorite two things were seeing the Tang Dynasty Show (spectacular) and visiting the Terra Cotta Warriors site!

All of the China Spree tour guides were punctual, knowledgeable, professional and personable, but I can't begin to say enough about our national guide, Robert. He was all of the above and more—always patient, helpful, thoughtful and a lot of fun to be with!

Thanks for the memories! That's what traveling is all about—our photos are precious, but it's the memories that are priceless. I still don't understand how you can offer AND fulfill all that you have for the price! It was truly a pleasure doing business with you!

Sincerely,

**Linda Fredericks**
